What is NemKonto?

A NemKonto is a normal bank account which you already have, and you assign it as your NemKonto. All payments from public institutions will be transferred directly to this account.

Who needs to have NemKonto?

All citizens and companies in Denmark and Greenland

How do I inform the authorities about my NemKonto?

Contact your bank and inform them which account to assign as your NemKonto

Visit www.nemkonto.dk and assign an account number yourself. You can only do this if you have a NemID or a digital signature.

Change your NemKonto in your home banking system.

Can I still receive my money by check?

In principle, the money can no longer be paid by check once NemKonto takes effect. However, there might be special cases where a public entity is unable to make payments electronically. In such cases, it's up to the particular public office to find a solution.
