

Deductions for Combined Tax Withholding for Limited Tax Liable Individuals, 2025 (F9)

This document provides the tax deduction amounts and withholding rates to be used for withholding combined tax (Greenlandic and Danish). Combined taxation applies when both Greenlandic A-tax and Danish A-tax is withheld from the same income.

Please, note

- Combined tax withholding is only applicable to individuals who have limited tax liability to Greenland, meaning they reside in Greenland for less than six months.
- The individual has tax liability to Denmark, i.e., the employee is subject to Danish taxation.
- The employee does not need to present a Greenlandic tax card to the employer. Instead, the deduction rates and tax percentages provided in this document should be applied.
- The employer is responsible for calculating the total salary and tax, including the value of fringe benefits. For information on fringe benefits, see A-income for 2023 at www.aka.gl under Business/Employer Register/Fringe Benefits.
- The deduction amounts apply to the employee regardless of personal circumstances or municipality of taxation.
- The employer is not required to provide tax card deductions for holiday allowances.

Tax-free Deduction Amounts – Rates

The following tax-free deductions apply:

Per day	Per week	Per 14 days	Per month
167 DKK	1.173 DKK	2.346 DKK	5.083 DKK

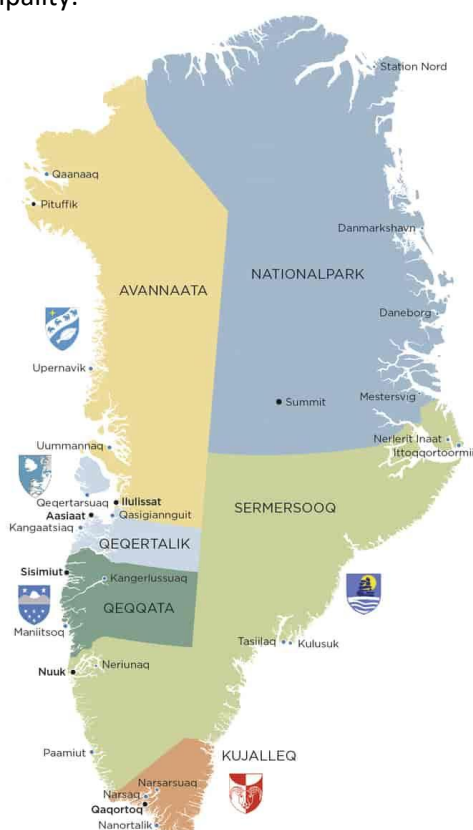

Municipal Withholding Rates

The withholding rate depends on the employee's tax municipality.

The tax municipality is the first "work municipality" during the employee's stay in Greenland.

Num-ber	Tax Municipality	% Tax
31	Kommune Kujalleq	43
32	Kommuneqarfik Sermersooq	42
33	Qeqqata Kommunia	42
37	Avannaata Kommunia	44
36	Qeqertalik Kommunia	42
20	Tax Agency (Areas outside municipalities)	36
